Enclosure series conTROL

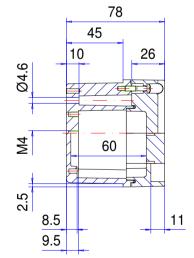

Type: EKT 082

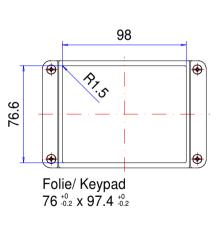

Material-No.: 310.082.000

^{*} Please note: Mould slope for casting ejection, dimensions in the amount of the bottom!

GD-Al Si 12 (DIN 1725)
4x stainless steel 1.4567 (V2A), captive
1x TPE moulded gasket, siliconefree, black
IP66 EN 60529

Weight	600 g
Earthing screws	5x M4x6, galvanized steel
Coating	Powder coating RAL 7032, pebble grey
Tolerance	GTA 13/5 DIN 1688-4 (outside dimensions ±0,5mm)

310.082.000 conTROL EKT 082

Product overview		
Material	Aluminum	
Protection Class	IP 66/EN 60529, IP 67/EN 60529	
Color	RAL 7032	
Length (L)	5.12 inch	
Width (W)	3.35 inch	
Height (H)	3.07 inch	
Weight (g)	600 g	

conTROL

THE EMC OPERATING ENCLOSURE

IP 66, Optional: IP 67

The key product features:

- Enclosure material: diecast aluminium
- Enclosure surface: powder coating, RAL 7032
- High inner collar
- · Tooth system in the bottom section for continuous contact
- · Cover with high protective collar
- Sizes compatible with standard enclosures available on the market, therefore easy to exchange
- · Lid screws in stainless steel 1.4567
- · Enclosure seal: TPE molded gasket

conTROL is a robust and versatile range of RFI/EMI shielded aluminum enclosures which is ideal for machine control equipment. The enclosures feature in-built shielding that does not require expensive and delicate conductive gaskets. Continuous contact is created by means of a patented tooth system pre-cast into the lid and base.

Standard features include a deep recessed lid which is designed to protect buttons and control switches. The enclosures are water-tight and weather resistant to IP 66. Threaded screw bosses are provided inside for fitting circuit boards, mounting plates, terminal rails etc. Accessories such as mounting plates and cable glands are also available.

We can supply conTROL enclosures fully customized to your requirements.

Enclosure sizes

4

Additional info

High shielding from radiation interference (RFI/EMI tested by the University of Hanover)

Collar protects command and information buttons

Inexpensive, as there is no need for expensive conductive gaskets

Large range of accessories

Enclosure

Diecast aluminum alloy

EN AN-44300 DIN EN 1706

(GD AI Si 12/DIN 1725)

1° mold slope for casting ejection > internal circumference dimensions decrease by 1° towards enclosure bottom.

Fastening

Separate screw channels outside of the enclosure interior

Console panel integration with installation kit

Internal mounting

M4 fastening thread in lateral bars on the enclosure base and optional fastening on the lid

Ingress protection

IP 66 / EN 60529

Optional: IP 67 / NEMA 4

Gasket

TPE molded gasket, silicone-free

Optional: Silicone gasket

Lid screws

Stainless steel 1.4567, captive

Surface

Powder coating RAL 7032, silky gray

Optional: Special colors

Optional: Corrosion protection

Customizing

Learn more about our full customizing service for installation-ready enclosures

Full-Service-Products

Customization according to your wishes.

Everything begins with individual advice. We'll be pleased to support you with your project and find solutions for every requirement. Customer-specific solutions are our speciality.

Test our products with your internal mounting. We'll be pleased to send you a sample enclosure for inspection with no strings attached.

We'll manufacture every enclosure for you according to your exact specifications - whether they involve precise drilling or large tolerance.

Thanks to our modern CNC production, we can quickly and efficiently mill custom-fit cut-outs and contours to match your exact specifications.

Our services also include engraving your logo and other elements, which we can of course perform in any colour you desire.

We can process stainless steel enclosures and plates quickly and reliably according to your individual requirements thanks to our in-house lasering centre.

We can powder coat enclosures, command enclosures and suspension systems in any RAL colour you desire. Custom colours are of course also possible.

We can also paint all our enclosures in any RAL colour you desire. The application of primer and special colour structures are possible, as well.

If desired, we can apply your logo and lettering or other markings using serigraph printing.

Digital printing is particularly worthwhile for low-volume orders and for realising complex parterns or images.

We offer our conFORM low-price standard EMC enclosure to protect your internal mounting against electromagnetic radiation. On request, we can also supply an EMC-compliant version of any other ROLEC enclosure.

We are able to offer the right made-tomeasure display for all our enclosures - in varying sizes and degrees of robustness depending on the application.

ROLEC's portfolio also includes matching front plates, mounting plate, supporting rails and terminal blocks as well as a range of cable glands, blanking plugs etc.

Would you like to have all your components supplied already assembled?
No problem. Our assembly team will be pleased to perform all assembly work on your behalf.

If you have any requirements for services not listed here, please ask us. Customer-specific solutions are our speciality. We also are keen to take on unusual tasks.

We will help you with those challenges that many others

Our Service

would give up on.
