

## **IP69K Enclosures**

**PROTECT YOUR ELECTRONICS FROM HIGH PRESSURE JET WASH AND STEAM CLEANING**

### **Protect your electronics from high pressure jet wash and steam cleaning**

According to the IEC 60529 rating system, IP 69K electronic enclosures must protect equipment from high pressure jet wash and steam cleaning.

IP ratings are fully explained here >>[NEMA/IP cross reference guide](#) >>Choose from diecast aluminum (tough but light); stainless steel (with optional electropolishing for added corrosion resistance) or Luran (UV stable). Several models can be mounted 'lid closed' – protecting the seal and electronics during installation or maintenance.

### **Also available...**
