

IP69K Enclosures

PROTECT YOUR ELECTRONICS FROM HIGH PRESSURE JET WASH AND STEAM CLEANING

Protect your electronics from high pressure jet wash and steam cleaning

According to the IEC 60529 rating system, IP 69K electronic enclosures must protect equipment from high pressure jet wash and steam cleaning.

IP ratings are fully explained here >>[NEMA/IP cross reference guide](#) >>Choose from diecast aluminum (tough but light); stainless steel (with optional electropolishing for added corrosion resistance) or Luran (UV stable). Several models can be mounted 'lid closed' – protecting the seal and electronics during installation or maintenance.
